=====

1.Vinyl tile supplied by Polyflor. Source suppliers for underlay with

3mm thick

Two visits required (first tile was incorrect, actual is vinyl color scheme 7037)

2. Optometry pretest room - inspected 4 door handles, 2 of them were loose, dismantled and refitted securely

NOTE : Broken glass shelf clips - OPSM supplied clips to store and staff installed the clips by themselves (no need for us to attend)
